

FREMANTLE OCTOPUS

It's love at
first bite

WILD
CERTIFIED
SUSTAINABLE

www.fremantleoctopus.com.au

The worlds rarest premium species, Western Rock Octopus, sustainably wild-caught in the pristine waters off the Western Australian coastline with our revolutionary patented trigger trap technology.

Fremantle Octopus is Australia's dominant license holder and largest vertically integrated octopus fishing, processing, production, distribution and export company. This ensures we have full control over the entire process, ocean-to-plate.

The companies fleet and facilities continue to grow, but it's our relentless innovation and decades of knowledge that make Fremantle Octopus a sustainable favourite amongst chefs with an obsession for quality.

Fremantle Octopus adhere to the highest Marine Stewardship Council (MSC) standards, whilst continually innovating and striving for more sustainable fishing practices, to ensure we are leading the charge for the Global Fishing Industry.

Our MSC accreditation highlights our dedication to upholding a sustainable supply chain for future generations.

Our fierce dedication to their craft, is highlighted by Fremantle Octopus proudly being crowned the winner of the MSC Best Sustainable Product Award in Australia 2021.
